TM-1 Timbersizer

(Special Application Planer)

The TM-1 Timbersizer is designed to provide an excellent surface finish for material which is to be planed (4) sides from 30" in height to 24" in width and smaller. The heavy duty construction of the TM-1 will withstand years of abuse and is equipped with Helical carbide cutterheads for reduced noise and knife maintainance.

The top feed rolls are pneumatic tires mounted on steel arbors to accomodate the thickness variations inherate in this type of application while providing the high torque feeding power required in the mills of today.
